LATER-NO LIVES LOST. Chicago, Aug. 29.—The latest from the Marine City disaster, via Port Hudson, says no lives were lost. No further particulars can be obtained to-night.

Strike of Iron Workers. ALLENTOWN, Pa., Aug. 20.—The employes of the Allentown rolling mill struck yester-day against a reduction of wages.

A British Colony in Tennessee CINCINNATI, Aug. 29 .- The Hon. Thomas Hughes, M. P., is here, and expects to go in a day or to the colony in Tennessee, along the line of the Cincinnati Southern railroad, with which he is interested. He will remain there two or three weeks.

Condition of Mr. Washington Mercan,

LONG BRANCH, N. J., aug. 25 .- Washington Mr. and a relapse early this morning, which at first caused seme alarm. It soon passed over, and this evening the editor is very bright, the usual sluking spell that comes on generally toward evening being scarcely noticed.

The prominent indiana democrats who have openly desorted their party afford a noble example to intelligent and patriotic democrats in every northern state. A "selid north" is the only protection for human rights and material interests against the "solid south." McLions and a relapse early this morning.

Progress of the B. P. Ballroad. SAN FRANCISCO, Aug. 28 .- The end of the track of the Southern Pacific railroad is now within 196 miles of El Paso, and it is the intention to reach that point on or before Jan uary 20, 1881. On the 23d instant the party at the front bad surmounted all obstacles encountered in the Dragoon mountains. The boundary line between New Mexico and Arizona will be reached in twelve days.

The Colorado Republicans.

LEADVILLE, COL., Aug. 28.—The platform adopted by the state republican convention indorses the state administration and the national and state nominations; declares opposiion to mono-metalism, in favor of the re-es-tablishment of silver on an equal basis with gold, and in favor of the free coinage of silver. It also declares that the democratic congress in its treatment of the Indian question has failed to discharge a public duty. Adjourned.

General Grant's First Political Speech. CRICAGO, Aug. 28.-A Galena special says last night at a republican mass-meeting General Grant, being introduced by Hon. Philo A. Orton, spoke as follows:

A. Orton, spoke as follows:

I did not intend to speak when I came here tonight. I am very much like Judge Orton. I have never made a republican speech in my life or any kind of a political speech. I am sure it would require some time and nuch preparation to make one of any length. I can of course go a little further than Judge Orton, and say that I never voted a republican presidential ticket in my life, and but one democratic ticket, and that was many years ago, when I was quite a young man. But will pledge you my word here to-night that if I am spared, although I shall be at some distance from you, on the 2d day of Nevember I shall return to Galena to cast one republican vote for president of the United States, and I hope the city of Galena will east a round republican vote, such as it never cast before.

To the Editor of The National Republican:

Sin: It seems to be a matter of surprise to some of the newspaper men that Mr. Wade Hampton should deny having said that which reliable witness a testify that he did say. Such editors do not understand the true southern idea of "honah." Falsehood for political uses is a legitlimate part of their creed. If, like George Washington, they could not tell a He, how would their Mississippi plan be worked? It might be possible for Mr. Wada Hampton to tell the truth if he was trying to manage his private financial affairs to us to raise money by mortgage on a 1876, after the murders of Hamburg and enton, in which he said that "not a drop blood had been shed in South Carolina for political purposes during the campaign ex-cept by republicans." If any one imagines that telling the truth is necessary to southern chivalry they make a great mistake.

Again, Governor Chamberlain, in his second inaugural, quoted from an off-repeated asser-tion of Mr. Wade Hampton, that he held Governor Chamberlain's life in his hand. The

THE SOUTHERN CENSUS FRAUDS. Unmistakable Evidences of Frandulent

The work of examining the returns of the An Attack Threatened from the Scinde cusus enumerators, with a view to discover ug whether there is any official evidence o fraud, is rapidly advancing, and there is every reason to believe that General Walker, super intendent of the consus, will obtain evidence

These changes of political front are omiing and conscientious democrats of the north are fearful of the result of a "change" which would put in power a "solid south" that is determined not only to destroy the results of the war, but to make the wealth or the markly contribute freely inward paying for whipping was reads. A party made up of all the inflationists and repudiationists in the country is not calculated to win the support of men who have any property at stake.

How Soldiers Voted.

To the Editor of The National Republican: Sin: The organ of the democracy in this ty has iterated and reiterated a lie until it nas seemingly begun to believe it. It insists in season, and out of season, that there were more democrats than republicaus in the volunteer army defending the union. This is a lie every time it is asserted. I recruited a company, time it is asserted. I recruited a company, went to the front, and our legislature passed a law enabling us to vots while in the field. Result: Three to one in favor of Lincoln as against McClellan, that idol of volunteers, so named, and this in a company recruited from a democratic district in Pennsylvania, where the county gave a democratic undority of 1,550 to 2,000. Ou, no, the republicans enlisted to not down the southern redelling and put down the southern rebellion, and the democrats stayed at home to resist the draft, and we had a company of artillery stationed in our borough in Schuylkill county to keep down the copperheads and to suppress the ittle rebellion we had at home to sid the arger one in the south. Go into any post of the Grand Army of the Republic, a charitable and not a political organization, and you will find republicans largely outsumbering the demo-crats, and the organ will find when the votes are counted in November that enough demoerats did not go into the union army to clea Hancock president. ONE OF THE BOYS. August 23, 1880.

Voting as They Shot.

To the Editor of The National Republican: democrafs than republicans in the army to orush the rebellion," I give the following: The constitution of Maryland, which was framed in 1861 (whon, by the way, according o their theories of state rights, thousands of e against their own state), was entirely too yal to meet the views of these democrats of the stayed at home, because of two clauses a that constitution which made it obligatory a them, before entering upon my clice of rest or profit, to subscribe to an outh or firmation that they would "support and described that they would "support and described to be in the region of \$10,000,000. fand the constitution laws and government of the United States as the supreme law of the land." It was submitted to the people and ratified October 12 and 13, 1844, by the ollowing vote: Home vote—27,541 for, 29,533 against, and 61 blank. Soldiers' vote—2,63. er and 263 against, making the majority in vor of ratification 375.
